

High Precision Dual Axis Slew Drive Fast and Smooth Rotation for Precise Control

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: ZHUOLI
- Certification: ISO9001
- Model Number: RKS. 062.20.0414

Product Specification

- Sealing: Sealed
- Material: Steel
- Size: Customizable
- Type: Single Row
- Load Capacity: High
- Warranty: 1 Year
- Bearing Type: Slewing Bearing
- Mounting Type: Bolted
- Highlight: **dual axis slew drive,
high precision slewing bearing,
smooth rotation slew drive**

Product Description

Product Description:

The Single Row Slewing Bearing is a versatile component designed for various slewing applications. With its bolted mounting type, this bearing ensures secure and stable installation, making it ideal for use as a Center Driveshaft Support Bearing or Ceramic Sliding Bearing. Operating within a wide temperature range of -40°C to 80°C, this slewing bearing is suitable for diverse environmental conditions, providing reliable performance even in challenging situations. Its capability to withstand extreme temperatures makes it a dependable choice for applications requiring a Drive Shaft Center Bearing.

One of the key features of this product is its lubrication system. Designed to be grease-lubricated, the Single Row Slewing Bearing offers low maintenance requirements while ensuring smooth and efficient operation. The inclusion of grease lubrication enhances the bearing's longevity and reduces the risk of premature wear, making it a cost-effective solution for long-term use.

In addition to its functional benefits, this slewing bearing boasts excellent corrosion resistance. With the ability to resist corrosion, this bearing is well-suited for applications where exposure to moisture or harsh environments is a concern. Its corrosion-resistant properties contribute to the bearing's durability and reliability, ensuring consistent performance over time.

Features:

Product Name: Single Row Slewing Bearing

Lubrication: Grease

Rotational Speed: High

Load Capacity: High

Mounting Type: Bolted

Warranty: 1 Year

Technical Parameters:

Operating Temperature	-40°C To 80°C
Application	Slewing
Warranty	1 Year
Mounting Type	Bolted
Type	Single Row
Sealing	Sealed
Trademark	Neutral/OEM/According To Customized
Bearing Type	Slewing Bearing
Corrosion Resistance	Yes
Size	Customizable

Applications:

ZHUOLI Single Row Slewing Bearing (Model: RKS. 062.20.0414) is a high-precision bearing product designed for various application occasions and scenarios. Manufactured in CHINA, this bearing comes with ISO9001 certification, ensuring quality and reliability.

With its high precision and sealed sealing, the ZHUOLI Single Row Slewing Bearing is suitable for a wide range of applications in the mechanical industry. One of its key applications is in the field of excavator slewing systems, where precision and durability are essential for smooth operation.

Whether used in construction machinery, industrial robots, or cranes, this slewing bearing is known for its exceptional performance and reliability. The steel material and grease lubrication ensure optimal functionality even in demanding working conditions.

For industries requiring bearing spare parts, the ZHUOLI Single Row Slewing Bearing is a preferred choice due to its high precision and quality construction. It can be used in conjunction with ceramic sliding bearings to enhance overall performance and longevity.

Overall, the ZHUOLI Single Row Slewing Bearing is a versatile product that meets the needs of various applications, from heavy-duty machinery to precision equipment. Its high precision, sealed design, and compatibility with ceramic sliding bearings make it a reliable choice for industries seeking durable and efficient bearing solutions.

Support and Services:

Our Product Technical Support and Services for Single Row Slewing Bearing include:

- Installation guidance and assistance
- Troubleshooting support for any issues
- Maintenance recommendations and schedules
- Product training and documentation
- Warranty information and claims processing
