

Grease Lubricated Double Row Cylindrical Roller Bearing for Corrosion Resistance and Heavy Duty Applications

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: ZHUOLI
- Certification: ISO9001
- Model Number: RKS. 062.20.0414

Product Specification

- Type: Single Row
- Warranty: 1 Year
- Lubrication: Grease
- Operating Temperature: -40°C To 80°C
- Sealing: Sealed
- Corrosion Resistance: Yes
- Bearing Type: Slewing Bearing
- Mounting Type: Bolted
- Highlight: Grease lubricated cylindrical roller bearing,
Double row bearing for heavy duty ,
Corrosion resistant slewing bearing

Product Description

Grease Lubricated Double Row Cylindrical Roller Bearing for Corrosion Resistance and Heavy Duty Applications

Product Description

The Single Row Slewing Bearing is a crucial component for various industrial applications, particularly in the field of heavy machinery such as excavators. Known by different names such as Excavator Slewing Ring Bearing, Bearing Spare Parts, and Drive Shaft Center Bearing, this product plays a vital role in ensuring smooth and efficient operation of rotating machinery.

Designed for easy installation, this slewing bearing features a Bolted Mounting Type, making it suitable for a wide range of equipment types and configurations. Whether used in excavators, cranes, or other machinery, the bolted mounting ensures a secure and stable connection, leading to reliable performance even under heavy loads and harsh operating conditions.

With a Grease Lubrication system in place, this bearing reduces friction and wear, extending its lifespan and minimizing the need for frequent maintenance. This feature not only enhances the overall performance of the machinery but also reduces downtime and operational costs in the long run.

The Single Row Slewing Bearing comes with a generous 1 Year Warranty, ensuring that customers can trust in the quality and durability of this product. Users have flexibility in choosing the Trademark that best suits their needs, whether opting for a Neutral, OEM, or Customized Trademark.

One of the key highlights of this product is its High Precision design, which is essential for demanding industrial applications where accuracy and efficiency are paramount. The high precision ensures smooth operation, minimal vibration, and precise positioning.

Applications

ZHUOLI single row slewing bearing model RKS. 062.20.0414 is a high-quality product made of steel, manufactured in China. This slewing bearing is designed for various applications in the field of excavators, providing reliable performance and durability.

The RKS. 062.20.0414 slewing bearing is specifically suitable for excavator slewing applications, offering precise rotation and stability. Its bolted mounting type ensures easy installation and maintenance, making it a convenient choice for excavator machinery.

With ISO9001 certification, the ZHUOLI single row slewing bearing guarantees high standards of quality. Whether in construction, mining, or other heavy-duty industries, this bearing provides a reliable solution for enhancing the functionality of excavators.

Customization

Brand Name: ZHUOLI
Model Number: RKS. 062.20.0414
Place of Origin: CHINA
Certification: ISO9001
Mounting Type: Bolted
Size: Customizable
Sealing: Sealed
Warranty: 1 Year
Application: Slewing

Keywords: Drive Shaft Center Bearing, Dual Axis Slew Drive, Excavator Slewing Ring Bearing

Packing and Shipping

The slewing bearing will be securely packaged in a sturdy cardboard box with protective padding to prevent damage during transit.

We offer fast and reliable shipping services to ensure that your order reaches you in a timely manner. The product will be shipped using a trusted courier service to your specified address.

FAQ

Q: What is the brand name of this Single Row Slewing Bearing?

A: The brand name of this product is ZHUOLI.

Q: What is the model number of this Single Row Slewing Bearing?

A: The model number of this product is RKS. 062.20.0414.

Q: Where is this Single Row Slewing Bearing manufactured?

A: This product is made in CHINA.

Q: Does this Single Row Slewing Bearing come with any certifications?

A: Yes, this product is certified with ISO9001.

Q: What are the key features of this Single Row Slewing Bearing?

A: This bearing is designed for high load capacity and smooth rotation, suitable for various industrial applications.
