

High Precision Single Row Slewing Bearing Steel Bearing Type for Heavy-Duty Applications

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: ZHUOLI
- Certification: ISO9001
- Model Number: RKS. 062.20.0414

Product Specification

- Corrosion Resistance: Yes
- Mounting Type: Bolted
- Bearing Type: Slewing Bearing
- Material: Steel
- Type: Single Row
- Precision: High
- Operating Temperature: -40°C To 80°C
- Size: Customizable
- Highlight: **Single row slewing bearing steel,
Heavy-duty slewing bearing,
Precision slewing bearing with warranty**

Product Description

High Precision Single Row Slewing Bearing Steel Bearing Type for Heavy-Duty Applications

Product Description

The Single Row Slewing Bearing is a top-quality bearing designed for various applications requiring precise rotation and load-bearing capabilities. With a wide operating temperature range of -40°C to 80°C, this bearing excels in both extreme cold and hot environments, making it suitable for a wide range of industries and applications.

Specifically engineered for slewing applications, the Single Row Slewing Bearing is ideal for use in machinery such as excavators, where precise rotation and stability are crucial. Whether it's used as an Excavator Slewing Ring Bearing, Center Driveshaft Support Bearing, or simply as an Excavator Slewing Bearing, this product delivers exceptional performance and reliability.

The Single Row Slewing Bearing is categorized as a Slewing Bearing, which means it is designed to handle rotational movement with ease. Its high load capacity ensures that it can support heavy loads without compromising on performance or durability.

One of the key features is its single-row design, which enhances efficiency and performance in slewing applications. The single-row configuration allows for smoother rotation and better load distribution, resulting in improved overall functionality and longevity.

Applications

ZHUOLI single row slewing bearing model RKS.062.20.0414 is a high-precision bearing suitable for various applications in the slewing industry. This product, originating from China and certified with ISO9001, is designed to meet the demands of high rotational speeds and precise movements.

The ZHUOLI RKS.062.20.0414 single row slewing bearing is commonly used as a center driveshaft support bearing in machinery where smooth and efficient rotation is required. Its high precision and grease lubrication make it ideal for critical applications such as drive shaft center bearings in automotive systems.

One of the primary application scenarios is in excavators, where it serves as a reliable component for smooth slewing operations. The bearing excels in providing stability and accuracy, making it a preferred choice for heavy-duty equipment.

Customization

For the Single Row Slewing Bearing product from ZHUOLI, we offer extensive Product Customization Services to meet your specific requirements. Our Model Number RKS.062.20.0414 is designed and manufactured in CHINA, ensuring high quality and precision.

With ISO9001 Certification, you can trust the reliability and performance of our products. The Sealed design provides added protection, while the Corrosion Resistance feature ensures durability even in challenging environments.

This Single Row Slewing Bearing is ideal for applications requiring a Bolted Mounting Type. It offers the strength and functionality needed for various industries.

Rest assured with our 1 Year Warranty, giving you peace of mind and confidence in your investment.

Packing and Shipping

Product Name: Single Row Slewing Bearing

Description: High-quality single row slewing bearing for industrial applications

Package Includes: Single Row Slewing Bearing

Shipping Method: Standard shipping

Shipping Cost: Calculated at checkout

Frequently Asked Questions

What is the brand name of this Single Row Slewing Bearing?

The brand name is ZHUOLI.

What is the model number of this Single Row Slewing Bearing?

The model number is RKS.062.20.0414.

Where is this Single Row Slewing Bearing manufactured?

It is manufactured in China.

Does this Single Row Slewing Bearing come with any certification?

Yes, it comes with ISO9001 certification.

What are some key features of this Single Row Slewing Bearing?

The ZHUOLI RKS.062.20.0414 Single Row Slewing Bearing is known for its high quality construction, smooth operation, and reliable performance.
