

High Rotational Speed Single Row Slewing Bearing for Steel Rotational Machinery and Equipment Applications

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: ZHUOLI
- Certification: ISO9001
- Model Number: RKS. 062.20.0414

Product Specification

- Material: Steel
- Application: Slewing
- Load Capacity: High
- Operating Temperature: -40°C To 80°C
- Trademark: Neutral/OEM/According To Customized
- Corrosion Resistance: Yes
- Size: Customizable
- Rotational Speed: High
- Highlight: **High speed single row slewing bearing,
Steel machinery slewing bearing,
Rotational equipment slewing bearing**

Product Description

High Rotational Speed Single Row Slewing Bearing for Steel Rotational Machinery and Equipment Applications

Product Description

Our Single Row Slewing Bearing is a top-of-the-line product designed for various applications requiring precise rotation and high load capacity. With a mounting type of Bolted, this bearing is ideal for easy installation and secure attachment in different systems.

Specifically engineered for slewing applications, this bearing is a perfect fit for Excavator Slewing Bearing needs. It ensures smooth and efficient rotation, making it an essential component for your excavator equipment.

The Single Row Slewing Bearing is built to withstand extreme conditions, with an operating temperature range from -40°C to 80°C. This wide temperature range ensures reliable performance in both cold and hot environments, making it versatile for different industries.

When it comes to Load Capacity, this bearing excels with its high load-bearing capability. It can handle heavy loads with ease, providing stability and durability in demanding working conditions. Whether it's for industrial machinery or heavy equipment, this bearing delivers exceptional performance under pressure.

Rest assured that our Single Row Slewing Bearing comes with a 1-year Warranty, ensuring that you have peace of mind and confidence in the quality and reliability of this product. We stand behind the durability and performance of our bearing spare parts, offering you the assurance you need for your operations.

Applications

ZHUOLI Single Row Slewing Bearing (Model: RKS. 062.20.0414) is a high-load capacity and high-precision bearing suitable for various applications across different industries. This product, originating from CHINA, is certified with ISO9001 standards, ensuring quality and reliability.

With its sleek design and superior performance, the ZHUOLI Single Row Slewing Bearing is ideal for:

- Double Row Cylindrical Roller Bearing Replacement: The ZHUOLI Single Row Slewing Bearing can serve as a cost-effective and efficient alternative for replacing double row cylindrical roller bearings in various machinery and equipment.
- Drive Shaft Center Bearing: This slewing bearing model is perfect for use as a drive shaft center bearing in automotive applications, providing stability and smooth operation.
- Excavator Slewing Ring Bearing: The ZHUOLI Single Row Slewing Bearing is well-suited for excavator applications, offering high load capacity and precision for smooth rotation and operation.

Whether for industrial machinery, construction equipment, or transportation vehicles, the ZHUOLI Single Row Slewing Bearing with its neutral/OEM/customized trademark is a versatile component that can enhance the performance and durability of various systems.

Customization

Product Customization Services for Single Row Slewing Bearing:

Attribute	Value
Brand Name	ZHUOLI
Model Number	RKS. 062.20.0414
Place of Origin	CHINA
Certification	ISO9001
Material	Steel
Application	Slewing
Warranty	1 Year
Operating Temperature	-40°C To 80°C
Load Capacity	High

Product attributes include Double Row Cylindrical Roller Bearing, Center Driveshaft Support Bearing, and Dual Axis Slew Drive.

Packing and Shipping

Our Single Row Slewing Bearing is carefully packaged to ensure safe delivery to our customers. Each bearing is wrapped in protective material and placed in a sturdy cardboard box to prevent damage during transit.

Shipping: We offer worldwide shipping for our products. Orders are processed within 1-2 business days and shipped via reputable courier services to ensure timely and secure delivery.

FAQ

Q: What is the brand name of this Single Row Slewing Bearing?

A: The brand name is ZHUOLI.

Q: What is the model number of this Single Row Slewing Bearing?

A: The model number is RKS. 062.20.0414.

Q: Where is this Single Row Slewing Bearing manufactured?

A: It is manufactured in CHINA.

Q: Does this Single Row Slewing Bearing have any certification?

A: Yes, it is certified with ISO9001.

Q: What are some key features of this Single Row Slewing Bearing?

A: The ZHUOLI RKS. 062.20.0414 Single Row Slewing Bearing is known for its high quality, durability, and precision engineering.
