

High Rotational Speed Single Row Slewing Bearing with High Load Capacity and Grease Lubrication

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: ZHUOLI
- Certification: ISO9001
- Model Number: RKS. 062.20.0414

Product Specification

- Operating Temperature: -40°C To 80°C
- Application: Slewing
- Rotational Speed: High
- Corrosion Resistance: Yes
- Trademark: Neutral/OEM/According To Customized
- Size: Customizable
- Mounting Type: Bolted
- Material: Steel
- Highlight: **high speed single row slewing bearing,
single row slewing bearing with grease
lubrication
, high load capacity slewing bearing**

Product Description

High Rotational Speed Single Row Slewing Bearing with High Load Capacity and Grease Lubrication

Product Description

The Single Row Slewing Bearing is a versatile and reliable component designed for a variety of applications. This product is specifically engineered for heavy-duty machinery and equipment, making it an ideal choice for demanding industrial environments.

With a focus on durability and performance, this Excavator Slewing Bearing is built to withstand high rotational speeds while maintaining smooth operation. The design features a Single Row configuration, ensuring optimal load distribution and efficiency.

The use of high-quality Grease lubrication enhances the longevity and efficiency of this bearing, reducing friction and wear for extended service life. This critical feature ensures smooth and reliable operation, even under heavy loads and challenging conditions.

When it comes to installation, the Bolted Mounting Type of this bearing simplifies the setup process, allowing for easy and secure attachment to the equipment. This design feature streamlines maintenance and replacement procedures, saving time and effort in the long run.

Whether used as a Center Driveshaft Support Bearing or in other industrial applications, this Single Row Slewing Bearing delivers consistent performance and reliability. Its robust construction and high-quality materials make it a durable and cost-effective solution for various machinery requirements.

Backed by a 1-year Warranty, customers can have peace of mind knowing that this bearing is designed to meet stringent quality standards and provide reliable performance over an extended period.

Applications

ZHUOLI Single Row Slewing Bearing RKS. 062.20.0414 is a high-quality product originating from CHINA. With ISO9001 certification, this slewing bearing is designed for various applications in the industry.

The product is suitable for use in Dual Axis Slew Drive systems, providing efficient rotation and stability. Its design makes it perfect for Excavator Slewing Ring Bearing applications, ensuring smooth operation and durability even in demanding conditions.

Equipped with a Double Row Cylindrical Roller Bearing, this slewing bearing offers enhanced load-bearing capacity and reliability. The use of grease lubrication allows for smooth and consistent performance, reducing maintenance needs and extending the product's lifespan.

Operating within a temperature range of -40°C to 80°C, this slewing bearing is versatile and can withstand varying environmental conditions.

Customization

Brand Name:	ZHUOLI
Model Number:	RKS. 062.20.0414
Place of Origin:	CHINA
Certification:	ISO9001
Lubrication:	Grease
Warranty:	1 Year
Sealing:	Sealed
Trademark:	Neutral/OEM/According To Customized
Material:	Steel

Packing and Shipping

Product Name: Single Row Slewing Bearing

Description: High-quality single row slewing bearing suitable for various industrial applications.

Packaging: The single row slewing bearing is carefully packaged in a sturdy cardboard box to ensure safe transportation.

Shipping: We offer worldwide shipping for the single row slewing bearing. Shipping costs may vary based on the destination and shipping method selected.

FAQ

Q: What is the brand name of this Single Row Slewing Bearing?

A: The brand name is ZHUOLI.

Q: What is the model number of this Single Row Slewing Bearing?

A: The model number is RKS. 062.20.0414.

Q: Where is this Single Row Slewing Bearing manufactured?

A: It is manufactured in CHINA.

Q: Does this Single Row Slewing Bearing come with any certification?

A: Yes, it is certified with ISO9001.

Q: What are the key features of this Single Row Slewing Bearing?

A: The key features include a ZHUOLI brand, model number RKS. 062.20.0414, manufactured in CHINA, and certified with ISO9001.
